Introduction

Getting Started

This presentation uses the Metropolyst theme with default settings:

- **Aspect ratio:** 16:9
- **Fonts:** Fira Sans throughout
- **Accent color:** Orange (#eb811b)
- **Header background:** Dark teal (#23373b)

Example of two-column layout

The first column is wider than the second

Because the code for the layout is

```
#slide(composer: (3fr, 2fr))[
  First column content
][
  Second column content
]
```

For equal width columns

You can instead do

```
#slide[
  First column content
][
  Second colum content
]
```

This is a focus slide for emphasis!

Configuration options, and a long slide title with font size automatically scaled to fit on one line

These are the default styles for **bold**, alert, and hyperlink text.

View the documentation for all configuration options.

Example

```
#show: metropolyst-theme.with(
  font: ("Roboto",),                        // Modern sans-serif
  font-size: 22pt,                          // Slightly larger text
  accent-color: rgb("#10b981"),             // Emerald accent
  hyperlink-color: rgb("#0ea5e9"),          // Sky blue links
  header-background-color: rgb("#0f172a"), // Slate dark header
)
#set strong(delta: 300)                     // Bolder bold text
```

These are the custom styles for **bold**, alert, and hyperlink text.
